

ARTS AND CULTURE

Bridging Cultures Implementation Grants

In setting forth its vision for the National Endowment for the Humanities, Congress declared that the humanities reflect the high place accorded by the American people to the nation's rich cultural heritage and to the fostering of mutual respect for the diverse beliefs and values of all persons and groups. To help Americans better understand our own rich cultural heritage, while enhancing public knowledge of and respect for others both here and abroad, NEH has launched the Bridging Cultures initiative. The initiative encourages projects that explore the ways in which cultures from around the globe, as well as the myriad subcultures within America's borders, have influenced American society. With the aim of revitalizing intellectual and civic life through the humanities, NEH welcomes projects that expand both scholarly and public discussion of diverse countries, peoples, and cultural and intellectual traditions worldwide. As part of its Bridging Cultures initiative, NEH welcomes proposals to implement a national or regional program for broad and diverse public audiences on one of two humanities themes: "Civility and Democracy" or "The Muslim World and the Humanities."

CHILDREN AND FAMILIES

Community Services Block Grant (CSBG) Training and Technical Assistance (T/TA) Program: Leadership Development Center of Excellence

The Office of Community Services (OCS) within the Administration for Children and Families (ACF) announces that competing applications will be accepted for a new grant to support a national CSBG Leadership Development Center of Excellence (LDCE). The LDCE will serve as a central gateway to high-quality and relevant leadership development T/TA activities, information, and resources, and develop a recommended approach for talent management within Community Action Agencies (CAAs) and other CSBG-eligible entities. The T/TA is intended to help these agencies prepare for transition into the next decade with the strongest talent available. This effort will focus on helping to ensure CAAs and other CSBG-eligible entities develop leadership with the broad range of skills (e.g., public administration, strategic planning, succession planning, financial management, human resource development, community relations, performance evaluation, and cultural competence) necessary for management of complex non-profit and public entities according to the high standards necessary for oversight of public funds. The core functions of the LDCE will be training and continuing education development and coordination, information collection and resource management, and information dissemination. Other key responsibilities of the LDCE will be to develop a strategy to partner with and support leadership development programs conducted through State CAA Associations and regional consortia.

National Human Trafficking Victim Assistance Program

The central purpose of this cooperative agreement is to efficiently fund comprehensive case management services on a per capita basis to foreign victims and potential victims of a severe form of trafficking in persons seeking HHS certification in any location within the United States. Persons qualified for services under this grant (qualified persons) means victims of a severe form of trafficking in persons who have received certification from ORR or, in the case of child victims, letters of eligibility from ORR; potential victims of a severe form of trafficking who are seeking assistance to achieve HHS certification; aliens classified as a non-immigrant under Section 1101 (a)(15)(T)(ii) of title 8 of the U.S. Code; and minor dependent children of victims of severe forms of trafficking in persons or potential victims of trafficking. The Anti-Trafficking in Persons Division within the Department of Health and Human Services (HHS) Office of Refugee Resettlement (ORR) intends to accomplish this purpose by awarding a minimum of four cooperative agreements for a project period of 36 months (three years) with three 12-month budget periods. The initial award will be made for the first 12-month budget period. Continuation awards for subsequent budget periods will be subject to the availability of funds, satisfactory progress by the grantee and a determination that continued funding would be in the best interest of the Federal Government. Applicants must clearly define the dollar value of the per capita benefit to be

provided to each qualified person served under this opportunity. The awarded organization must provide case management and referrals to qualified persons either directly through its own organization or through sub-award(s) to other organizations. The Director of ORR may give priority consideration to applications that demonstrate three or more years of experience in identifying and assisting both foreign victims of sex and labor trafficking, including the provision of, or management and oversight of, case management services, and providing technical assistance and trainings on human trafficking. The Director of ORR will give priority to those organizations with an established provider network for multiple states or metropolitan areas and capacity to provide case management services in locations with a demonstrated need for services. The Director of ORR will give priority to geographic locations with reported high incidence of human trafficking.

Campus Men Supporting Women's Health Project - FY11

The Office on Women's Health (OWH) was established in 1991 within the U.S. Department of Health and Human Services (HHS). Its vision is to ensure that all women and girls are healthier and have a better sense of well-being. Women's health and wellness promotion encompasses all aspects of health including mental, physical, social, intellectual, spiritual, and emotional well-being, throughout the life course. OWH's mission is to provide leadership that promotes health equity for women and girls through sex/gender-specific approaches. Staff in OWH achieve the office's mission and vision through the development of innovative programs, by educating health professionals, and by motivating behavior change in consumers through the dissemination of health information. OWH guides programmatic and policy activity within the Department to advance the work needed to eliminate violence against women (VAW) and girls in our country and the world through the HHS Steering Committee on Violence Against Women. The primary goal of OWH as it relates to violence is to ensure that the long-term health impact of violence against women garners national recognition and is addressed as a major public health issue. To that

end, the OWH has established public/private partnerships that address the health impact of violence against women. Violence against women is also known as gender-based violence and the two terms may be use interchangeably for this announcement.

National Resource Center for HIV/AIDS Prevention among Adolescents - FY11 OAH -

The Office of Adolescent Health (OAH) within the Office of the Assistant Secretary for Health (OASH) announces the availability of funds from the Minority AIDS Initiative (MAI) to establish and operate a National Resource Center with the specific focus on HIV/AIDS prevention among adolescents. This announcement seeks proposals from public and nonprofit private entities. It is anticipated that one cooperative agreement in the amount of up to \$200,000 will be awarded. A cooperative agreement is an award instrument of financial assistance where "substantial involvement" is anticipated between the HHS awarding agency and the recipient during performance of the contemplated project or activity. "Substantial involvement" means that the recipient can expect Federal programmatic collaboration or participation in managing the award. The resource center funded through this cooperative agreement will be required to provide information and other resources, including training and technical assistance that will promote HIV/AIDS prevention among adolescents, in particular adolescents from minority and high-risk populations.

Community Clinical Oncology Program Groups

This funding opportunity announcement (FOA) solicits applications from institutions/organizations that propose to serve as accrual groups for the NCI-supported Community Clinical Oncology Program (CCOP) Network. CCOP was established in 1983 to develop and conduct state-of-the-art cancer prevention, control and treatment clinical trials with significant involvement of community oncologists and populations they serve. The CCOP Network mission includes: (1) accelerating development of interventions to prevent and treat cancer and its symptoms by increasing accrual to trials; (2) fostering quality care in the community through adoption of results from clinical trials; and (3) increasing the involvement of minority and underserved patient/participant populations in cancer clinical trials and associated research. The CCOP Network consists of three components each with its own FOA.

DoD Autism Clinical Trial Award

The ARP Clinical Trial Award supports research with the potential to have a major impact on the treatment and/or management of ASD. Funding from this award mechanism must support a clinical trial and cannot be used for preclinical research studies. A clinical trial is defined as a prospective accrual of human subjects where an intervention (e.g., device, drug, biologic, surgical procedure, rehabilitative modality, behavioral intervention or other) is tested on a human subject for a measurable outcome with respect to exploratory information, safety, effectiveness, and/or efficacy. This outcome represents a direct effect on the human subject of that intervention or interaction. Principal Investigators (PIs) seeking funding for a preclinical research project should consider one of the other award mechanisms/funding opportunities being offered. The term human subjects is used in this Program Announcement/Funding Opportunity to refer to individuals who will be recruited for, or who will participate in, the proposed clinical trial.

MULTI-DISCIPLINARY

Women's Business Center Initial Grant

The U.S. Small Business Administration (SBA) has issued Program Announcement No. OWBO-2011-01 to invite private, 501(c)-certified nonprofit organizations that are located within and will provide services to the population of South Carolina as outlined in Program Announcement OWBO-2011-01 to apply for a five year Women's Business Center (WBC) grant. The SBA

Women's Business Center is a program or project funded, in part, by a grant from the SBA to provide technical assistance to women entrepreneurs, both nascent and established in the areas of finance, management, and marketing, and other areas as defined in Program Announcement OWBO-2011-01. A representative number of clients served by a WBC must be socially and economically disadvantaged. The WBC may exist within the framework of a larger economic development organization and may make use of the resources provided by that organization, but must be a clearly identifiable separate program or project of that entity. The successful applicant will receive an award in the form of a cooperative agreement for the base year. Four additional option years may be exercised, subject to the availability of funding and the WBC's performance during the previous year.

SAFETY

National Justice Information Sharing (JIS) Initiative FY 2011 Competitive Grant Announcement

BJA seeks to enhance the ability of justice agencies to share information in order to support critical public safety and criminal justice activities. BJA plans to address this nationwide need by developing and implementing national policy and best practices, creating national consensus standards in support of information sharing and interoperability, and delivering training and technical assistance services. Through this solicitation, BJA is seeking to enable the nation's criminal justice community to improve information sharing through advanced technology and tools that increase efficiency, enhance operations, and promote cost savings and reuse. BJA's National Justice Information Sharing (JIS) Initiative works collaboratively with key stakeholders and national partner organizations to identify critical issues and problems, and provide resources in response to emerging challenges in law enforcement, courts, corrections, reentry, human/social services, and tribal justice. This program is funded under the Edward Byrne Memorial Competitive Grant Program (Byrne Competitive Program) and the Edward Byrne Memorial Justice Assistance Grant (JAG) Program.

Capacity-building programs, research projects and assessments to enable the global community to better prevent and respond to gender-based violence (GBV) within refugee and conflict-affected populations

Limited Funding is available through the U.S. Department of State's Bureau of Population, Refugees, and Migration (PRM) for proposals for globally-relevant capacity building, research, assessment, or evaluation projects that will strengthen the international community's ability to reduce and effectively respond to gender-based violence (GBV) among PRM populations of concern. Proposals must: 1) Seek to build the capacity of NGO and implementing partners to prevent and respond to GBV with worldwide application and/or implications; and/or 2) Involve research, assessments or formative evaluations that could inform and strengthen PRM (and/or the international community's) policy and programming for GBV prevention and response. Such research, assessments, or evaluations should include concrete policy and program recommendations for relevant stakeholders and focus on PRM populations of concern. NOTE: This funding is not intended to build the capacity of a specific or single organization. Proposals for GBV prevention and/or response efforts serving refugee and conflict-affected populations in specific geographic locations should be submitted through a separate application process.

Remote Monitoring System for Detecting Cocaine Ingestion/Intoxication

This Funding Opportunity Announcement (FOA) requests applications for funding to develop and validate a reliable remote real-time cocaine monitoring system for use by clinical trials researchers testing cocaine dependence treatments. Applications proposing validation of the monitoring system that do not include validation of the monitoring system in cocaine dependent subjects will not be considered responsive to this FOA. Systems will leverage developments in behavioral and/or biometric sensing, mobile and wireless technology (e.g., mHealth) and real time data analysis to detect cocaine use in vivo. Completed systems will include hardware, software, storage and analysis solutions to provide for secure encrypted storage on devices, secure encrypted transmission to a database, and secure researcher interfaces from which data may be aggregated to plot and display data demonstrating clinically meaningful changes in cocaine consumption patterns by individual participants.
